

Foam-Control® EPS Architectural Shapes

Foam-Control EPS includes an ingredient you won't find in other EPS products. Control. Foam-Control EPS gives you control over the design of your project. You determine the shape and specs of the EPS components you need, then your Foam-Control EPS supplier works with you to deliver them on time and within budget.

EPS is an amazingly strong and versatile material. Consisting of over 90% air, Foam-Control EPS is available in a range of Types to provide the properties needed for your design. Foam-Control EPS is compatible with a variety of exterior finished coatings for maximum visual effect and durability.

Foam-Control EPS shapes are custom fabricated by hot wire cutting with computer aided design, and if necessary, assembled together to provide a solution specific to your needs.

Foam-Control EPS means that you can achieve product designs that wouldn't be possible with other materials.

EPS

CONTROL, NOT COMPROMISE.®

- CAD design and assembly can create effective 3-D architectural shapes
- Computerized fabrication equipment
- Well suited for lower volume items
- Available in a range of densities/Types
- Lightweight - reduces shipping costs
- Compatible with Exterior Finish Coatings

CONTROL YOUR MATERIALS. CONTROL YOUR DESIGN. CONTROL YOUR SHAPES. CONTROL YOUR PERFORMANCE. CONTROL YOUR

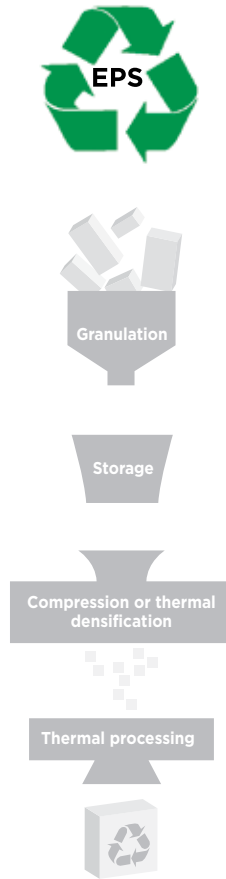

INTEGRITY. DON'T COMPROMISE YOUR R-VALUE. DON'T COMPROMISE YOUR STRUCTURE. DON'T COMPROMISE YOUR REPUTATION.

Foam-Control EPS always comes in green.

Foam-Control EPS helps make your shape environmentally friendly. It's 100% recyclable. It can be ground into granules and reincorporated into new Foam-Control EPS products. Or it can be thermally processed into a resin that's used to manufacture other new products.

Foam-Control EPS:

- 100% Recyclable
- Is inert and stable
- Does not produce contaminating leachates
- Has never contained CFC, HCFC or HFC, all of which are harmful to the earth's ozone layer

Foam-Control EPS Availability.

Your nearest Foam-Control EPS supplier will be happy to collaborate with you to determine your needs for Foam-Control EPS. They will work with you on the design, the materials, the processes, the quality and – ultimately – the success of your finished part.
